About Me

I am a Postdoctoral Research Fellow at EPFL and Idiap Research Institute, working with Dr. Jean-Marc Odobez on Human Perception and Activity Understanding. I received my PhD in Computer Science from the University of Birmingham in 2025. Prior to that, I earned both my Bachelor's and Master's degrees in Mechanical Engineering from Tsinghua University in 2017 and 2020, respectively.

My research spans various areas of artificial intelligence, including computer vision, multimedia, and human-computer interaction. My long-term research interests lie in understanding and generating human behavior. Specifically, I leverage deep learning techniques to track human motion (gaze, hand, and body), analyze human behaviors, and synthesize realistic digital humans.

Education

University of Birmingham (UoB)

PH.D. IN COMPUTER SCIENCE

Birmingham, UK

Sep. 2020 - Mar. 2025

Tsinghua University (THU)

M.ENG. IN MECHANICAL ENGINEERING

Beijing, China

Sep. 2017 - Jun. 2020

Tsinghua University (THU)

B.ENG. IN MECHANICAL ENGINEERING

Beijing, China

Sep. 2013 - Jun. 2027

Employment

Postdoctoral Research Fellow

PERCEPTION AND ACTIVITY UNDERSTANDING GROUP

EPFL & Idiap

Sep. 2025 - Present

- **Towards a Unified understanding of Attention and Social Behaviors in the Wild**
- **Keywords:** Gaze Following, Social Behaviors Analysis, Multimodal Large Language Models (MLLMs)
- **Introduction:** This research focuses on developing a unified multi-task learning framework to model human social behavior and attention in diverse, real-world environments. By leveraging Transformer-based scene and person encoders with cross-attention fusion, the project integrated subject-level dynamics (gaze, gestures) with scene-level social signals. The research focused on leveraging Vision-Language Models and graph-based message passing to create robust, transferable representations for human-centric computer vision.
- **Line Manager:** Dr. Jean-Marc Odobez

Postdoctoral Research Fellow

SCHOOL OF COMPUTER SCIENCE

University of Birmingham

Mar. 2025 - Sep. 2025

- **Gaze Estimation in the Wild**
- **Keywords:** Gaze Estimation
- **Introduction:** This research focuses on developing robust gaze estimation models that perform reliably in real-world, unconstrained environments. Unlike controlled lab settings, real-world scenarios involve varying head poses, lighting conditions, occlusions, and diverse demographics, which pose significant challenges for accurate gaze tracking. The project aims to bridge this gap using deep learning, domain adaptation, and data augmentation techniques. I am responsible for designing and implementing novel gaze estimation algorithms, conducting large-scale experiments, and contributing to publications. I also collaborate with other researchers to integrate the models into broader human-computer interaction systems.
- **Line Manager:** Dr. Hyung Jin Chang

Professional Activities

ACADEMIC EVENT

- | | | |
|-----------|--|-------------------|
| 2026 | Organizer , 7th International Workshop on Eye and Gaze in Computer Vision | CVPR Workshop |
| 2025 | Program Committee , 1st Human-Autonomous Vehicle Interaction Workshop | WACV Workshop |
| 2024 | Webchair , 6th International Workshop on Gaze Estimation and Prediction in the Wild | CVPR Workshop |
| 2023 | Webchair , 5th International Workshop on Gaze Estimation and Prediction in the Wild | CVPR Workshop |
| 2022 | Webchair , 4th International Workshop on Gaze Estimation and Prediction in the Wild | CVPR Workshop |
| 2021-2025 | Maintainer of Biggest Gaze Research Repository , Awesome Gaze Estimation in Github | Github Repository |

TEACHING

- | | | |
|------|--|--------------------------|
| 2025 | Assistant Supervisor , Youngchan Choi (PhD Student): 3D-Aware Gaze Redirection | University of Birmingham |
| 2019 | Teaching Assistant , Fundamentals of Testing and Inspection Technology (Undergraduate Course) | Tsinghua University |

GRANT

2018-2020 **Participants [£411,552]**, “In-line Inspection of Urban Gas Pipeline Networks”

*Beijing Municipal Science &
Technology Commission*

Peer-Review Activities

WORKSHOP

International Workshop on Gaze Estimation and Prediction in the Wild (2023/2024)

Human-Autonomous Vehicle Interaction Workshop (2025)

CONFERENCE

CVPR(2021/2022/2023), ECCV(2022/2024), AAAI(2024/2025/2026), ICME2025, NeurIPS2025, ACM MM2025

JOURNAL

IEEE Transactions on Circuits and Systems for Video Technology (TCSVT)

Honors & Awards

2024	ECCV Oral Paper Award , ECCV2024	<i>MiCo Milano, Italy</i>
2020-2024	China Scholarship Council (CSC) Scholarship , China Scholarship Council [£57,600]	<i>Beijing, China</i>
2023	BMVC Student Funding , BMVC2023	<i>Aberdeen, UK</i>
2023	BMVC Oral Paper Award , BMVC2023	<i>Aberdeen, UK</i>
2019	ICRAE Best Oral Presentation Award , ICRAE2019	<i>Singapore</i>
2018	Outstanding Social Work Scholarship , Tsinghua University	<i>Beijing, China</i>
2017	Finalist of Comprehensive Winter Study Abroad Program , University of Tokyo	<i>Tokyo, Japan</i>
2016	Finalist of International Undergraduate Research Experience Program , University of Notre Dame	<i>Notre Dame, USA</i>
2014	China National Encouragement Scholarship , Chinese Government	<i>Beijing, China</i>
2014	Science and Technology Innovation Scholarship , Tsinghua University	<i>Beijing, China</i>
2013	2nd Prize in Mechanical Innovation Competition , Tsinghua University	<i>Beijing, China</i>

Presentations

2025	Gaze-Controllable Face Generation , Invited Talk @ TAM at Idiap	<i>Birmingham, UK</i>
2024	Generalization of Gaze Estimation , Invited Talk @ 2024 CVPR Digestion Workshop at UoB	<i>Birmingham, UK</i>
2023	High-Fidelity Eye Animatable Neural Radiance Fields for Human Face , BMVC2023	<i>Aberdeen, UK</i>
2023	Image Synthesis for Gaze Estimation , Invited Talk @ 2023 CVPR Digestion Workshop at UoB	<i>Birmingham, UK</i>

Publications
